## **Relevant Skills**

---

### *Communication*

- I have developed communication skills through creating presentations, discussing with peers and delivering them throughout university.
- Throughout all my work and volunteering experience I have learned to communicate well with both my colleagues and customers.

### *Teamwork and Leadership*

- In University I have had multiple projects that require me to work in a team, and I have learned to both take the lead in group projects and work as a valued team member.
- I also have gained plenty of experience walking as a team member in multiple different bars with 5-30 members each, learning to communicate effectively.

### *Working to Deadlines*

- During University, I have learned to organize myself and be able to meet deadlines with apt time to spare.

## **Technical Skills**

---

Python	JavaScript
C#	HTML
C++	Knowledgeable in Microsoft 365 Suite
